## Largest Files Finder For Windows (Updated 2022)

Largest Files Finder is a small application designed to help you free up storage space on your computer or hard drive. Key features: Largest files finder will scan a 200 GB hard disk in approximately 1 minute. Quickly review large files and trim them down with one mouse click. View large files in Windows Explorer. Trim large files in the main window and click Add to move them to a free

---

space area. The application makes use of a file table to save the location, size and date created of each large file. The file table will not exceed 100 files and you can sort the entries by name, size, date of creation, extension, path and more. Free up storage space with the most efficient way.

Recommendations: The application does not support archiving data. If you want to archive large files, use an archive application. The price of

---

the program is free. The application can scan up to 200 GB of hard drive. Program offers a user-friendly interface with simple buttons. Largest Files Finder is an efficient solution for anyone who wants to free up storage space on the PC.

### System Requirements For Largest Files Finder:

Microsoft Windows 7,  
Windows 8, Windows 8.1,  
Windows 10 (64-bit only),  
or macOS High Sierra 10.13  
or later Running Lutro  
games on Mac can be  
complicated, as some games  
do not support universal  
binaries out of the box. To  
get around this, we've  
written up a guide on how  
to play Lutro games on Mac.
